Some Numbers & Trends

LibreOffice Users Estimate

- In term of number of users worldwide, we provide the following estimate based on a global number of PC users between 2 and 3 billion (90% Windows, 8% macOS, 2% Linux):
 - 100% of desktop Linux users (between 40 and 60 million)
 - 10% of desktop Windows users (between 180 and 270 million)
 - 10% of desktop macOS users (between 16 and 24 million)
- So, we pick the lower figure of 236 million users worldwide, and we further reduce it to 200 million users worldwide to account for some duplications.
