How do we see the future?

If 2012 is
not the
future, then
what?

Let's look back

Le saviez-vous ?

Comment insérer, en bas de chaque page d'un fichier texte, le numéro de page de la page suivante ?

Commencez par insérer une note de bas de page à l'aide de l'entrée de menu **Insertion - Note de bas de page**. Placez y le curseur et activez l'entrée de menu **Insertion - Instruction de champ - Autres**. Sous l'onglet **Document**, cliquez sur le type de champ "Page", sur la sélection "Page suivante", sur le format "D'après le style de page" et, pour finir, sur le bouton **Insérer**. L'instruction de champ que vous venez de configurer sera alors insérée dans la note de bas de page de votre document.

DON'T QUIT

When things go wrong as they sometimes will,
When the road you're trudging seems all up hill,
When the funds are low and the debts are high,
And you want to smile, but you have to sigh,
When care is pressing you down a bit,
Rest if you must but don't you quit!

Life is queer with it's twists and turns,
As everyone of us sometimes learns,
And many a failure turns about,
When he might have won had he stuck it out.
Don't give up though the pace seems slow,
You may succeed with another blow.

Success is failure turned inside out,
The silver line of the clouds of doubt,
And you never can tell how close you are,
It may be near when it seems so far,
So stick to the fight when you're hardest hit,
It's when things seem worse,
That you must not quit.
